Top 10 Tips for Planning the Perfect Wedding

1. Money Management

Plan for the type of wedding you can afford. Accept what you've got to spend and always keep this in mind when creating your perfect wedding. For example if you want an expensive photographer or a 'blow the budget' dress you may need to cut back in areas such as transport or flowers.

2. Be Organized

It is the key to successful and stress free wedding planning. Think about getting a dedicated wedding diary for all of your ideas, notes and supplier information.

3. Prioritize

Don't waste time getting carried away with the detail of your day until you have put in place the key elements. Remember to always confirm the Church before you confirm the Reception venue!

4. Plan Together

Start as you intend to continue, create your day together. Negotiate & Compromise with your intended & leave some room for family input!

5. The Dress

It is every brides desire to look enviable on their wedding day. Therefore, it is incredibly important to brides to be dressed in the most fashionable and trendy wedding dress on their big day. Keep in mind however that fashions change and wedding photos last a lifetime so it may be a good idea to keep the dress classic and timeless in its style. The bride has to wear the dress for the whole day, and therefore your wedding dress needs to be comfortable. You will need to consider the type of wedding and reception you are planning and how the dress will fit into the day. You will also need to consider the time of year the wedding will take place and the temperature at that time.

6. Your Guest List

When planning your guest list, be sensitive to the desires and expectations of each other and your families. As a guideline, allocate 1/3 of the guest list to the Bride, 1/3 to the Groom & 1/3 to mutual guests. Be sure to send out your invites at least two months in advance!

7. Bridesmaid & Best Man

Have a reliable best man and chief bridesmaid. It is important that you can rely on them to carry out their responsibilities and duties. Traditionally it is the best mans duty to protect the groom from bad luck, he must ensure that once the groom has begun his journey to the church he does not return for any reason!

8. Delegate

Behind every blooming bride and gorgeous groom is a fabulous and efficient team, so delegate what you can to friends and family who have skills in areas you need help with.

9. Take a Break

Remember to take a time-out from wedding plans with your intended. This will help you both to not lose sight of why you are making the marriage commitment!

10. The Honeymoon

Remember to set aside a portion of your budget for the all important honeymoon so you can get away, relax & spend some quality time together.

Did you know?

Something old: represents the couple's friends who will hopefully remain close during marriage. Traditionally this was an old garter which was given to the bride by a happily married woman to ensure future happiness.

Something new: symbolizes the newlyweds' happy and prosperous future.

Something borrowed: is often lent by the bride's family and is an item much valued by the family. The bride must return the item to ensure good luck,

Something blue: the custom originated in ancient Israel where the bride wore a blue ribbon in her hair to represent fidelity.
